The Chanticleer

102 Years of Chronicling Life at Duke University

2013

2014

Natalia Arenas Gallo, Editor

Welcome to a year at Duke

Change, the Theme

The 2013-2014 year at Duke has been marked by many changes; to highlight some of these, we have included some photographs from old editions of The Chanticleer in the dividers which we think showcase Duke and the yearbook's rich history.

How to Enjoy a Yearbook

You might notice that this year's Chanticleer is different. Because it's a book meant exclusively for seniors, the yearbook staff created a concise list of "Duke essentials" that will highlight the different events, sports, and people that make up this university.

We hope that you view this yearbook not only to scan for the activities you were a part of, but that you also take the time to appreciate the value of memorializing these in a timeless book.

n memory of Rebecca DeNardis

It's difficult to define what Becky DeNardis meant to the Round Table family because she meant so many different things to so many different people. For some, she was a patient teacher; for others, she was an eager student. For some, she was a passionate leader; for others, she was a caring teammate. For some, she was a loyal confidante; for others, she was a crafty prankster. But for all, she was a wonderful friend.

A conversation with Becky left you a little happier and a little more enchanted by the world. Her sentences usually began with, "I wonder if..." or "If this..." or "If that..." She had boundless curiosity and profound intuition.

Walking through section, you could often find Becky planning her latest Nerf Gun sneak attack on unsuspecting victims, watching obscure movie trailers in between study sessions or lacing up her sneakers to get ready for soccer, Zumba or weight-lifting. She had a penchant for study rooms all across Few and had a strange knack for finding uncharted and exotic study spots. She had a bottomless pit of almonds in her room and handed them out liberally. She was her own curator of music and would enthusiastically share it with others. Occasionally, her "newest" hipster song had already been on the Top 40 for a couple months. She was well known for "the Becky"—a famous dance that resembled Carlton's from *The Fresh Prince of Bel-Air*. No one could ever figure out her Halloween costumes—ranging from Audrey Hepburn to Eloise. She once planned a "smear campaign" against the Round Table presidents, planting flyers accusing them of "pizza sabotage." She often tried, unsuccessfully, to convince others that she'd never lied before in her life.

Becky's own words paint a fuller picture than anything else we could say. On her Round Table application as a freshman, she answered this question: If you were to be recognized by posterity for one thing, what would you like to be known for?

"Besides the given, my dazzling charm and incredible strength, I would most like to be remembered for my willingness to help other people. I would like to use the abilities I have to help people in some way. I am interested in finding more efficient, ecologically sustainable ways to distribute our world's diminishing resources, as well as designing affordable products to provide people in developing countries with basic necessities. What do you think?"

Along with furthering humanity with these types of advancements, I would also like to be remembered for helping people on a more personal basis, with their daily problems and conflicts."

We miss you, Becky, and we love you.

Letter from the Editor

Dear Class of 2014 graduate,

Thank you for reaching the last page of the 102nd edition of the Chanticleer.

It is my hope that this book will reflect a part of *your* Duke - whether that be the times you spent chatting on the plaza, scrambling to get on a C1 bus, or rushing past the chapel in between your classes. As well as showcasing a collective Duke, I hope this book will deepen your awareness of experiences beyond your own and do justice to our Alma Mater's beauty.

As someone who has grown up in many different countries and has said goodbye to friends on several occasions, I've often felt like I live very far away from important parts of myself. My goal is that flipping through the pages of this book has triggered some nostalgia, but that it has also helped lessen the distance between wherever you find yourself now and your Duke home.

Unfortunately, this edition was difficult to produce due to constant changes with The Chanticleer's budget.

I recognize that constant dialogue surrounding the yearbook's distribution has led to positive changes in the past. Because of some valid concerns, for the first time ever the yearbook was available only to seniors. Then, when senior interest was questioned we moved to an opt-in model to appease Duke Student Government's (DSG) demands. This process, though arduous, motivated the yearbook staff to reevaluate The Chanticleer's purpose and prove its worth: more than 90% of the senior class signed up for a yearbook.

Despite this, DSG cut our budget by 70% meaning that - for the first time in history - the yearbook will not be free for any Duke student. If these cuts keep increasing, The Chanticleer's mere existence is questionable. There is no way our organization can survive with such an imprecise system.

I'm optimistic that after perusing this book you'll join me in wishing the best for the only student-run publication that documents a shared Duke experience, and, by extension, appeals to the most diverse group of students.

All the best,
Natalia Arenas Gallo, Editor
